

# AI IOT

INTELLIGENT SYSTEM INTERFACES

Generative AI  
driven  
solutions for  
Internet Of  
Things

1965-2020  
*55 Jahre*

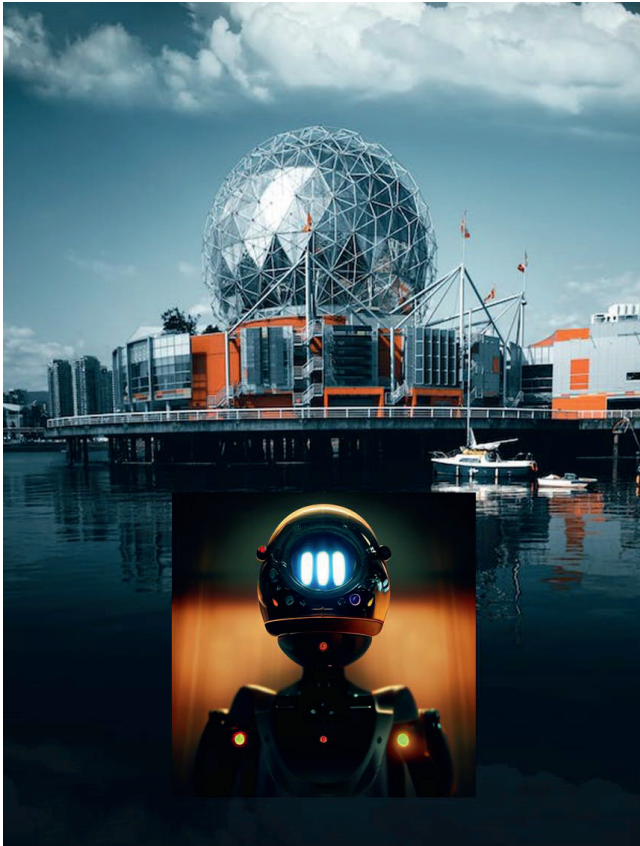

**Meyer Industrie-Electronic GmbH – MEYLE**

Carl-Bosch-Straße 8  
49525 Lengerich/Germany

Tel.: +49 (0)5481-9385-0  
Fax: +49 (0)5481-9385-12

## Generative AI in IOT

- A new breed of Solutions that are powered by Machine Intelligence and Human Interfaces.
- Proactive monitoring of systems and the ability for **the AI system** to formulate **(Generate) Preventative Maintenance schedule**
- System can interpret complex machine data, deciphering operational patterns that can help with early detection of potential failures and generate a mitigative recommendation
- System can understand and interpret corpus of data and technical manuals of devices. These can help with on demand „**Know-how**“ and assist with both installation, troubleshoot and maintenance
- **Conversational Intelligence** - interactive conversations with the AI system

## PROACTIVE MONITORING, GENERATIVE SOLUTIONS EMPLOYING ADVANCED AI ALGORITHMS

# AIOT Sensor Fusion

## Generative AI for Recommendations and Conversational Intelligence

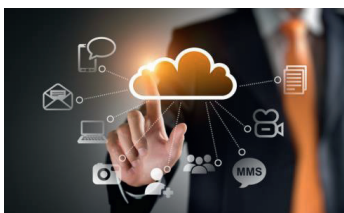

Fusing and analyzing disparate IOT sensor data streams to derive insights

Pressure, vibration, temperature and more.

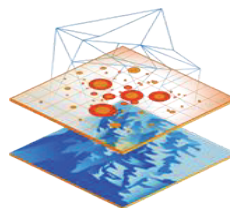

A.I models analyze Sensor data, Audio, video, 3D imaging data

Geofencing for asset tracking, perimeter monitoring

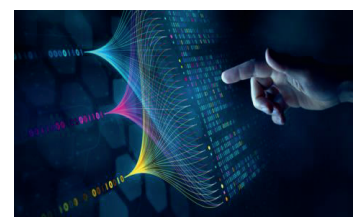

AI IOT Solutions by

Human in the Loop Control

AI Model Ensemble Recommendations

Augmented Intelligence

Generative, Predictive, Introspective,  
Intelligent Systems

## PROACTIVE MONITORING, GENERATIVE SOLUTIONS EMPLOYING ADVANCED AI ALGORITHMS

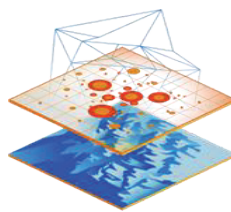

Real time monitoring

Operational Intelligence

Augmented Intelligence

Multimodal Analysis

Sensor Fusion

When was the last time we were this excited  
about Technology!!

Generative AI solutions for Internet Of Things
