Safety Relays

Safety Emergency Stop Relay SRLC

Low cost emergency stop relay, 2 safety contacts, safety category 3

Safety Emergency Stop Relay SR2C

Emergency stop relay, 2 safety contacts, safety category 4

Safety Emergency Stop Relay SR3C (AC/DC 24V)

Emergency stop relay, 3 safety contacts, safety category 4

Safety Emergency Stop Relay SR3C (AC115/230V)

Emergency stop relay, 3 safety contacts, safety category 4

Safety Expansion Unit SREC

3 additional safety contacts, safety category 3

Time-Delayed Safety Expansion Unit SRTC

3 additional time-delayed safety contacts, safety category 3

Time-Delayed Emergency Stop Relay SR4C

Combines non-time-delayed and time-delayed contacts in just one compact housing

Safety Emergency Stop Relay SR1

Emergency stop relay, 3 safety contacts, safety category 3

Safety Two-Hand Control Unit S2HC

Very compact universal two-hand safety relay, safety category 4 / III C

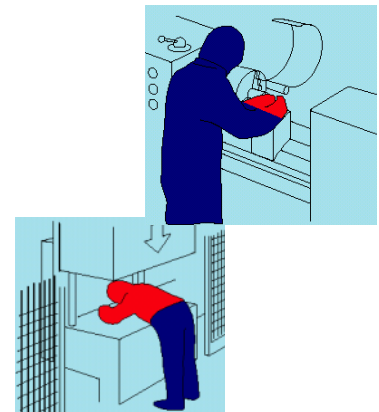

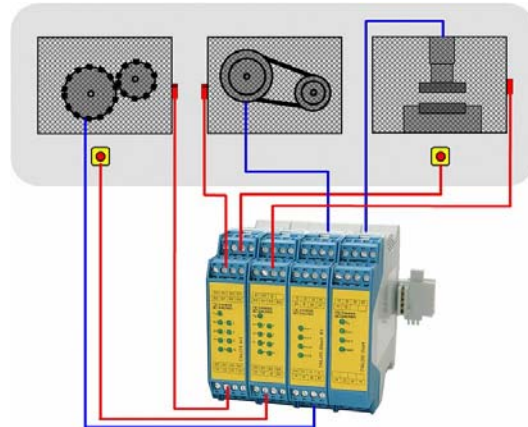

Compact Power Supply NTSR

22.5mm housing, optional for all DC24V safety relays „SR“

Safety Switches

Safety Switches and Plug & Play Safety Systems

For machinery safety we offer a growing selection of safety switches and safety emergency stop relays, designed, manufactured and certified according the latest national and international safety regulations.
